

FASTWEBCREATIONS LLC

CAPABILITY STATEMENT — AI, WEB & MOBILE DEVELOPMENT

Veteran-owned small business · Where speed meets innovation in every project

CAGE: 147W3	UEI: URB6TLKH17Z6	SAM.gov: Active — All Awards	Socio-economic: Veteran-Owned Small Business (SBA VetCert pending)
-----------------------	-----------------------------	-------------------------------------	---

CORE COMPETENCIES

- **AI solutions:** chat assistants, voice production, document automation, and workflow AI integrated into agency and business operations
- **Custom web applications:** React, headless CMS, WordPress, and cloud-native static architectures
- **Mobile applications:** iOS and Android builds through store deployment and maintenance
- **AWS cloud solutions:** serverless architectures (Lambda, S3, CloudFront, DynamoDB, SES), migration from legacy hosting, infrastructure-as-code delivery
- **Learning & community platforms:** LMS and community systems built and operated at scale
- **Modernization & migration:** legacy platforms to secure, low-cost, cloud-native builds

DIFFERENTIATORS

- Veteran-owned and veteran-operated; disciplined, deadline-driven delivery culture
- 15+ years of delivery across cloud, web, AI, and mobile
- Veteran-serving product experience: VA claims-preparation tooling and veteran story platforms
- Senior-level work with a direct line to the builder — no account layers or hand-offs
- Security-first delivery on AWS; practices aligned with FAR 52.204-21 basic safeguarding
- Small-business speed: scoped in days, delivered in weeks, plain-English communication

PAST PERFORMANCE

100+ completed commercial engagements across cloud infrastructure, WordPress, web development, artificial intelligence, and mobile applications. Our work includes AWS-powered SaaS platforms, secure document-processing systems, custom learning management solutions, React and React Native applications, AI assistants and voice products, membership platforms, API integrations, cloud migrations, and performance optimization.

We have supported organizations serving thousands of users, modernized legacy systems, automated manual workflows, strengthened security, and reduced client hosting costs by more than 80%. Our experience spans AWS services including Lambda, S3, API Gateway, RDS, Cognito, Bedrock, Textract, CloudFront, SES, and Step Functions, along with WordPress, WooCommerce, LifterLMS, React, TypeScript, and mobile deployment for iOS and Android.

Commercial references and project examples are available upon request.
